Summary

Front-End Developer with **2 years of experience** building high-performance, responsive web interfaces using React, Tailwind CSS, and TypeScript. I specialize in translating UI/UX designs into clean, maintainable code and delivering seamless user experiences. Passionate about modern web development, continuous learning, and turning ideas into functional, elegant digital products.

Experience

Frontend Developer - *December 2024 – Present*
Alexon CO. Enterprise Innovations - El Mansoura, Egypt

- Developed and maintained responsive WEB systems using React and Tailwind CSS, ensuring high performance and scalability.
- Collaborated with cross-functional teams to deliver user-centric solutions, improving the overall user experience.

UI Developer - *November 2023 – November 2024*
Smart Vision - El Mansoura, Egypt

- Crafted responsive and visually engaging user interfaces using HTML, CSS, JavaScript, jQuery, Bootstrap, and Tailwind CSS.
- Collaborated with designers and developers to transform UI/UX designs into functional front-end components, enhancing usability and performance across multiple devices.

Trainee UI Developer - *July 2023 – November 2023*
Smart Vision - El Mansoura, Egypt

- Assisted in building responsive and dynamic user interfaces using HTML, CSS, JavaScript, jQuery, Bootstrap.
- Applied modern design practices to enhance usability and visual consistency across devices and browsers.

Education

Faculty of commerce
Mansoura University

Projects

- ## PLUS 10 ↗
  Contributed to the development of the **Plus10** platform dashboard using React. Implemented core features including real-time notifications and integrated chat functionality. Focused on delivering a responsive and seamless user experience.
  Technologies Used: React, Tailwind CSS, Redux, Axios, React Query, i18next, antd, socket io , firebase notification.

- ## Jawraa – Apple Authorized Reseller ↗
  Worked as part of a team to develop an educational platform, focusing on the **admin dashboard** where I integrated **Pusher** for real-time notifications, enhancing communication between educators and the platform. The project empowers educators using **Apple** technology to foster creativity, critical thinking, and digital literacy.
  Technologies Used: React, Tailwind CSS, Redux, Axios, React Query, i18next, Pusher.

- ## Mall - Laps ↗
  As a freelancer, I worked on Mall Laps, an online marketplace resembling a mall with multiple stores. Each store features a variety of laptops and accessories, offering a seamless shopping experience for users to explore and purchase products from different vendors. I contributed to the development of both the website and the admin dashboard.

- ## Tastebite ↗
  Tastebite is a dynamic recipe platform built with Next.js, offering a wide range of mouthwatering recipes for every occasion. Users can explore detailed, easy-to-follow recipes with step-by-step instructions, ingredient lists, and helpful cooking tips. Tastebite is designed to inspire culinary creativity and elevate your cooking experience.

- ## NFT - Marketplace ↗
  A dynamic NFT marketplace built with Next.js for seamless buying, selling, and trading of digital assets. It offers fast, secure transactions, real-time updates, and an intuitive interface for exploring and showcasing collections.

- ## Riviera Resort ↗
  Riviera Resort is a modern, user-friendly platform offering seamless booking and vacation services. Built with React, Tailwind CSS, Ant Design, and Redux for a responsive and dynamic experience.

- ## Exclusive Ecommerce ↗
  Exclusive Ecommerce is a sleek, high-performance online store providing a seamless shopping experience. Developed with React, TypeScript, and Redux for optimal speed and interactivity.

- **Sidra Publishing** ↗

  Sidra Publishing is an eCommerce platform offering a wide selection of books with a user-friendly browsing experience. Built with HTML, CSS, SCSS, Bootstrap, JS, jQuery, and Swiper.js for a responsive and interactive design.

- **Crashes FIX** ↗

  Crashes Fix is a trusted partner for facility management and home maintenance services. Built with HTML, CSS, JS, jQuery, and Bootstrap to provide a responsive and efficient online platform for all your repair needs.
